

**REMARKS**

Reconsideration of this application is requested in view of the amendments to the specification and claims and the remarks presented herein.

The Brief Description of the Drawings has been amended to insert a reference to all the drawings and to obviate the other objections raised by the Examiner.

In view of the proposed amendments to the claims and the specification, it is believed that the claims now clearly point out Applicants' patentable contribution and favorable reconsideration of the application is requested.

Respectfully submitted,  
Muserlian, Lucas and Mercanti
